

QB50 Deployment System

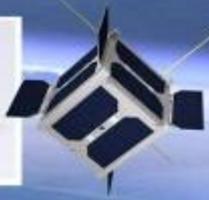

VKI - 28th of January 2013

C. Bernal

c.bernal@isispace.nl

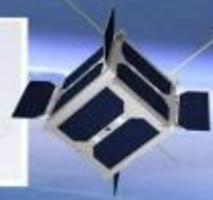

Contents

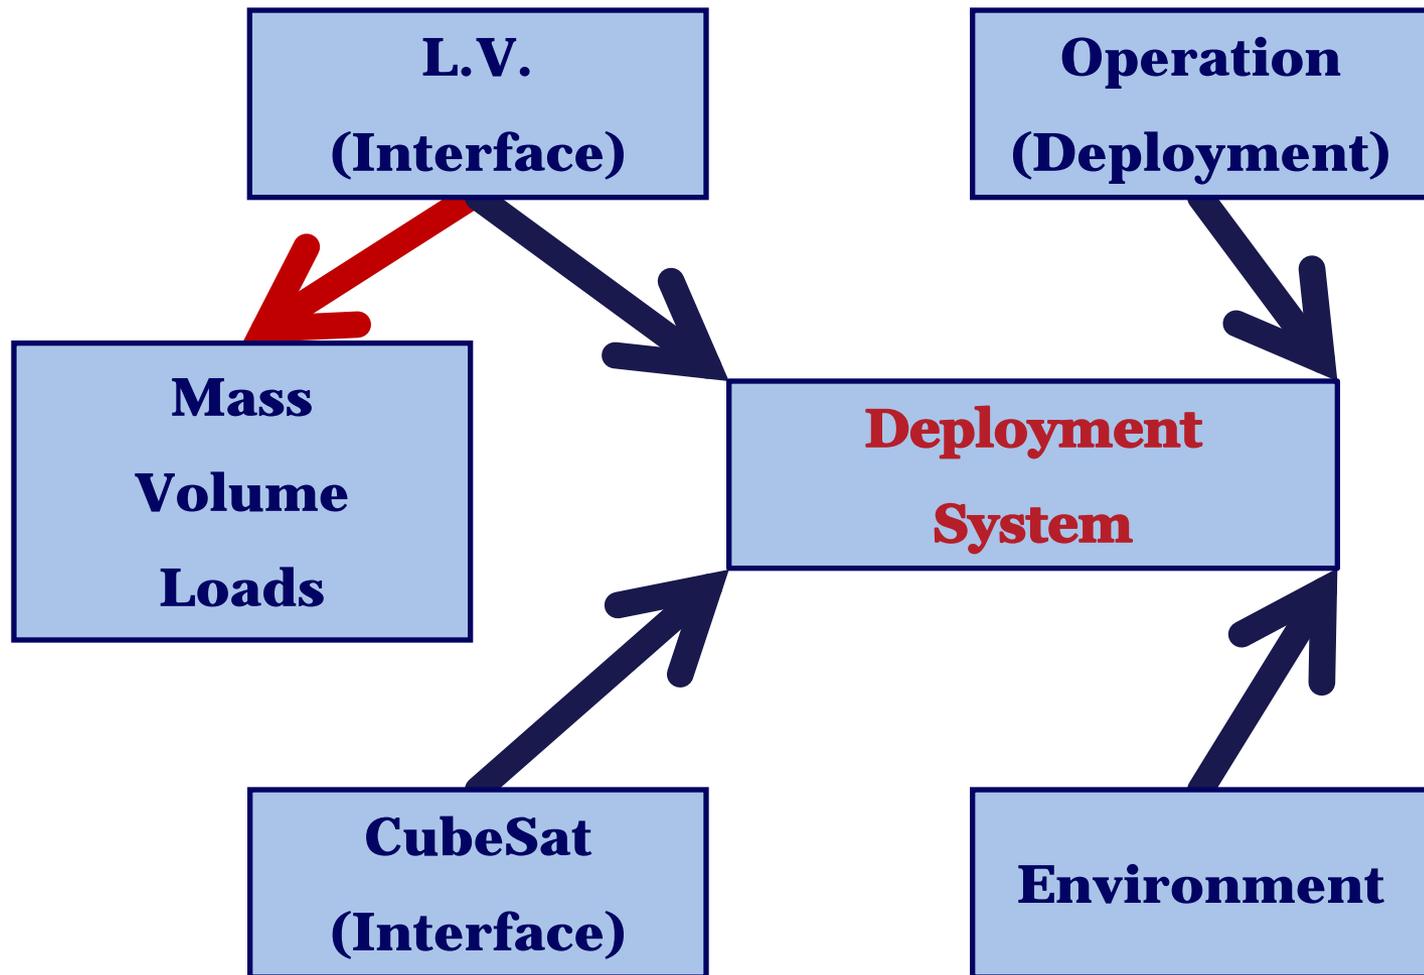

- **Requirements & Constraints**
- **LVs Envelope**
- **Configuration**
- **Derisk Prototype**
- **Precursor Flight Deployer**
- **QB50 Deployer**
- **Misc**

- **Requirements & Constraints**
- LVs Envelope
- Configuration
- Derisk Prototype
- Precursor Flight Deployer
- QB50 Deployer
- Misc

- **Requirements & Constraints**

Customized design w.r.t.

- QB50 LV and CubeSats
- **Gossamer-1**

- **LVs Envelope**

- **Configuration**

Optimized design w.r.t.

- Mass
- Volume
- Accessibility/Connection

- **Derisk Prototype**

- **Precursor Flight Deployer**

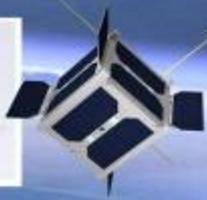

- **QB50 Deployer**

Flexible deployment

- Configuration
- Sequence
- Dynamics

- **Misc**

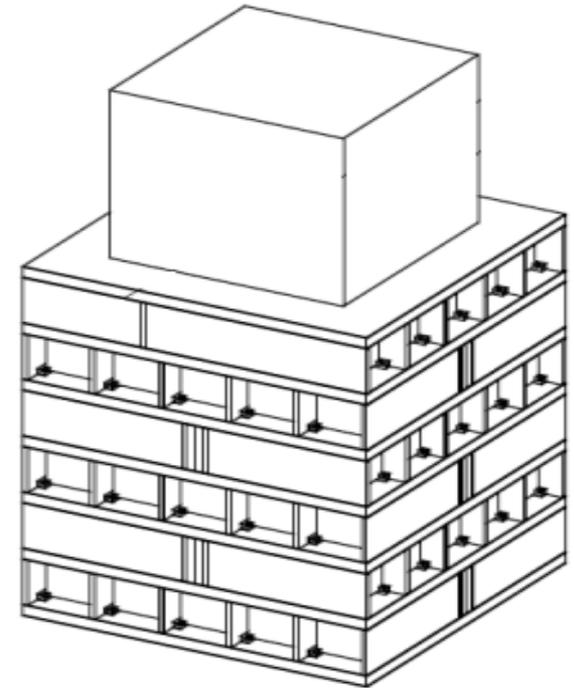

Configuration

- Requirements & Constraints
- LVs Envelope
- Configuration
- Derisk Prototype
- Precursor Flight Deployer
- QB50 Deployer
- Misc

Base-line Flight Configuration:

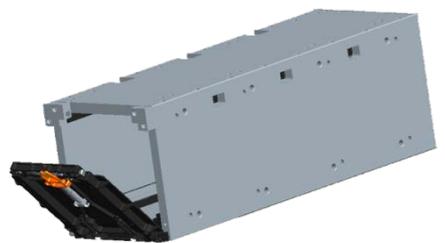

- **40 x 2U** CubeSats ‘atmospheric’
- **10 x 3U** CubeSats ‘science/technology demo’
- **Gossamer-1** solar sail demo

Configuration

- Requirements & Constraints
- LVs Envelope
- **Configuration**
- Derisk Prototype
- Precursor Flight Deployer
- QB50 Deployer
- Misc

- Flexibility
- De-risk

De-risk Concept

QB50

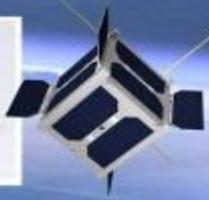

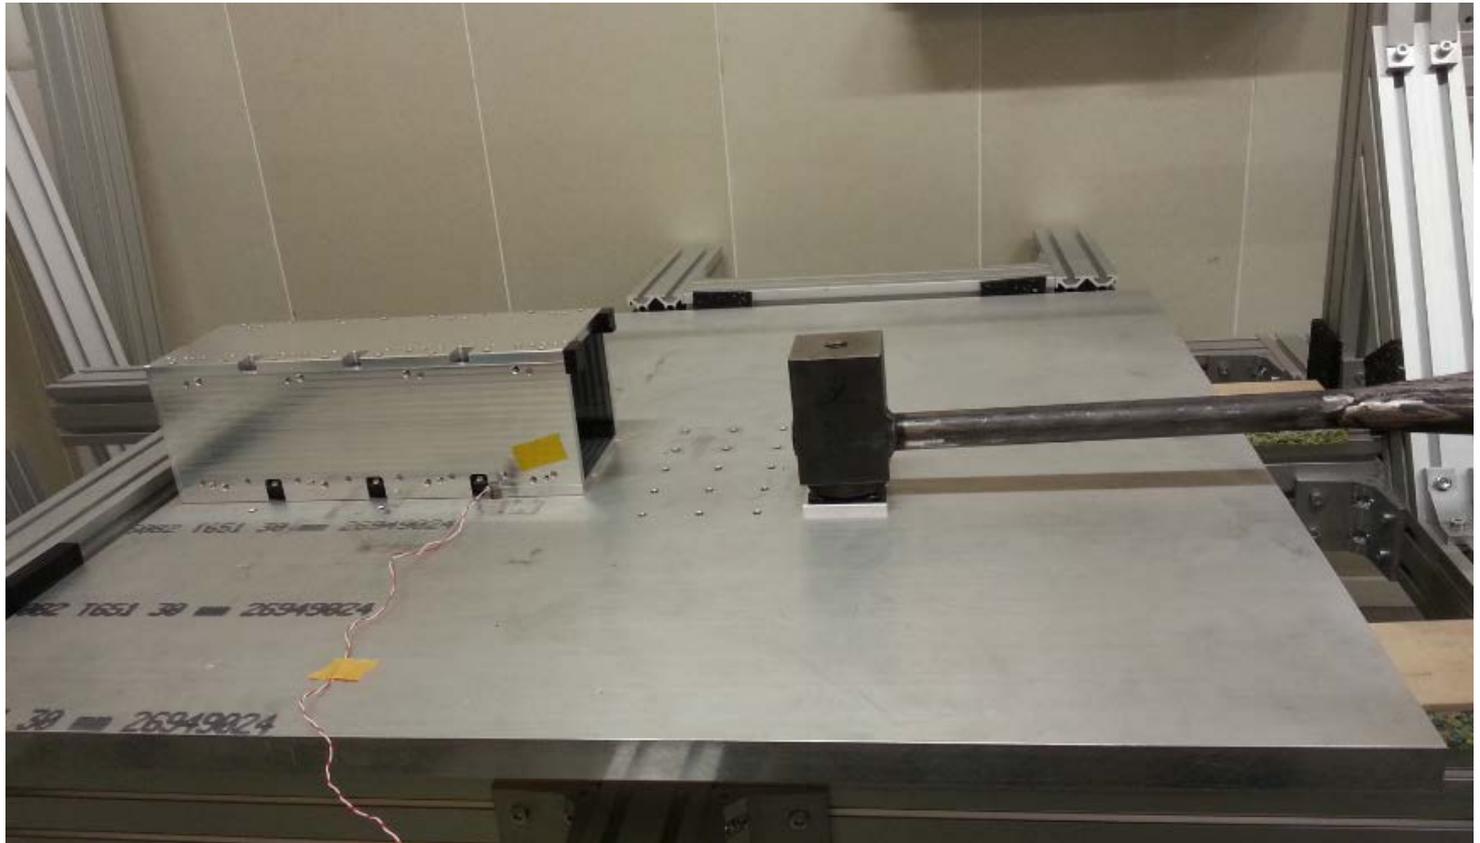

- Requirements & Constraints
- LVs Envelope
- Configuration
- **Derisk Prototype**
- Precursor Flight Deployer
- QB50 Deployer
- Misc

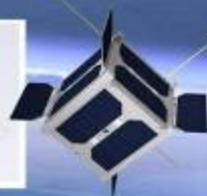

- Designed
- Produced
- Assembled
- Being tested

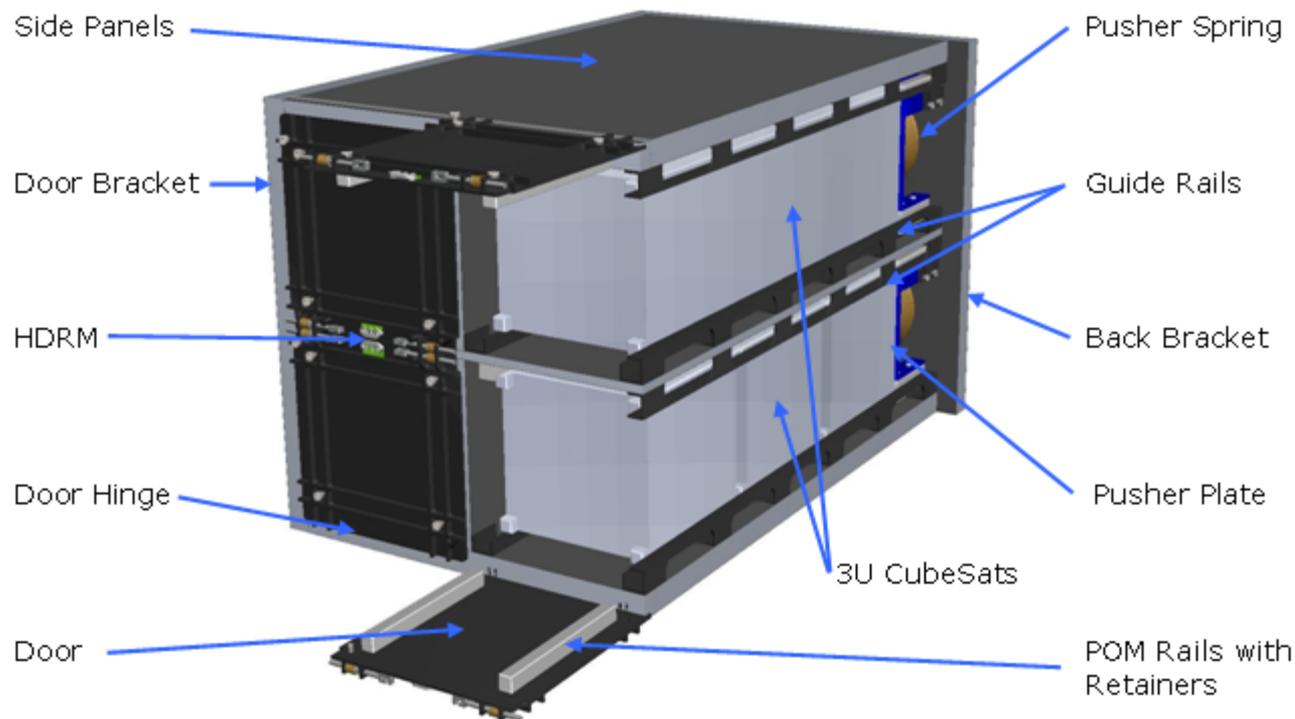

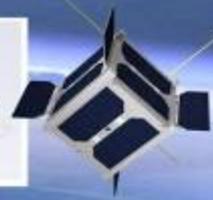

- Requirements & Constraints
- LVs Envelope
- Configuration
- **Derisk Prototype**
- Precursor Flight Deployer
- QB50 Deployer
- Misc

- Requirements & Constraints
- LVs Envelope
- Configuration
- Derisk Prototype
- **Precursor Flight Deployer**
- QB50 Deployer
- Misc

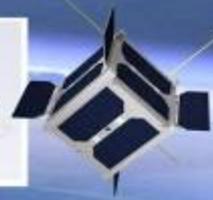

- Requirements & Constraints
- LVs Envelope
- Configuration
- Derisk Prototype
- Precursor Flight Deployer
- QB50 Deployer
- Misc

- Designed
- To be Produced/Tested
- Mass = 6kg
- Volume = 30lt
- Size = 403 x 272 x 272mm

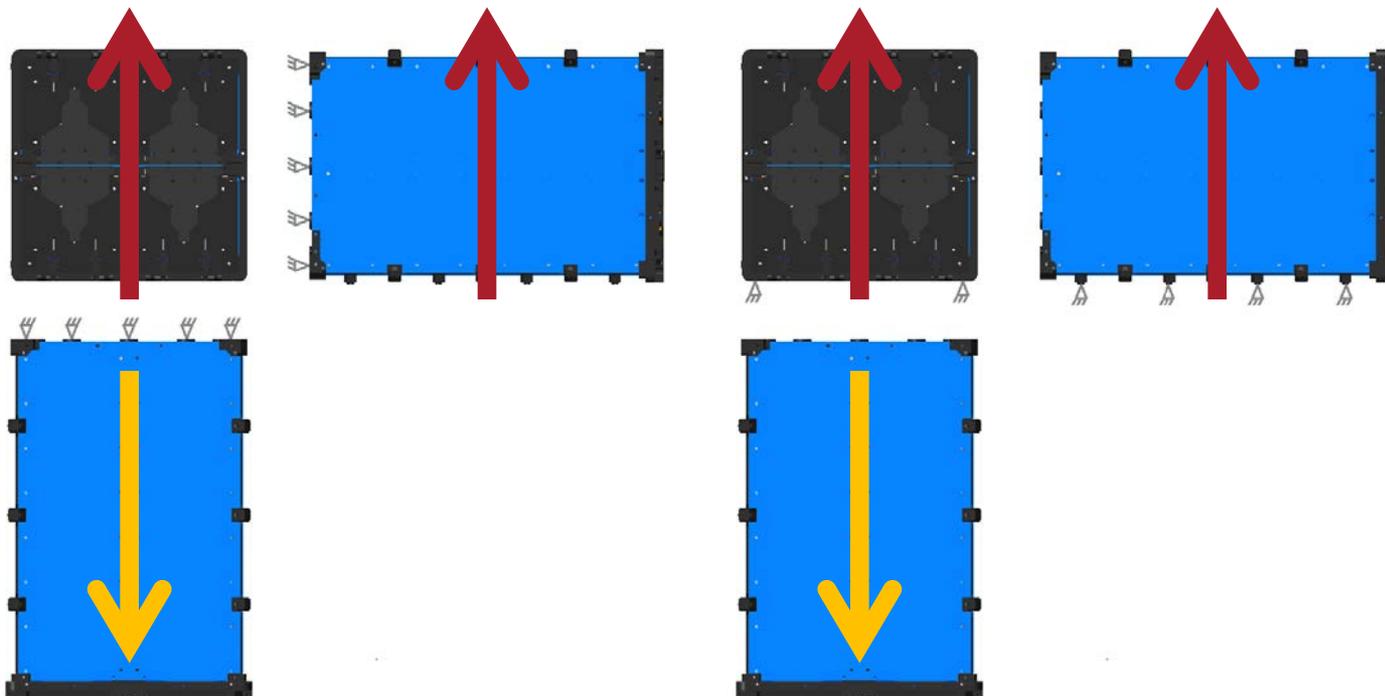

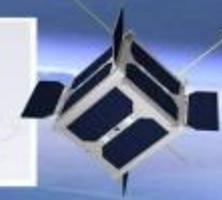

- Requirements & Constraints
- LVs Envelope
- Configuration
- Derisk Prototype
- Precursor Flight Deployer
- QB50 Deployer
- Misc

• Back-plate

• Bottom-rails

- Requirements & Constraints
- LVs Envelope
- Configuration
- Derisk Prototype
- Precursor Flight Deployer
- QB50 Deployer
- Misc

Performances

- Mass = 100kg
- Volume = 550lt
- Size = 750 x 850 x 850mm

Functionalities

- OBC
- Radio
- Batteries
- Solar Panels
